

WATCH Judging Schedule

Year : 2003

MATRIX UPDATED: AS OF 2/20/2003

Computer Generated by John Philip Downing

Introduction

Watch consists of 19 companies performing a total of 81 shows. A given company will put on between 3 and 7 shows. Each show will be judged (viewed) by a total of 10 judges. Thus there are a total of 810 viewings for the entire year. Thus each company's judging team will be responsible for 42 or 43 viewings. As much as possible, the viewings should be balanced among the different companies in all respects, with the provision that none of the viewings may be done by the judging team of the company that put on the show.

It will be noted that if each company's judging team views each of the other shows once, the team will view between 74 and 78 shows. Since this is more than 42/43, many viewings must be eliminated. This was done manually in the past, but this year has been automated.

The assignments of the viewings by each judge in a team was done by computer. Since it was easier to recognize a good schedule than to create one, a reasonably large number (5000000 – that's right, 5 million) of schedules were generated at random for each group and the best one chosen.

Schedule Rating System

Each company schedule rating was set to 100, and points were deducted for violation of the following rules:

2.00	A judge must not view two shows by the same company in a row.
4.00*	A judge must not view two shows from the same region in a row.
2.50*	A judge must not view two shows from the same region in the space of three viewings
1.50*	A judge must not view two shows from the same region in the space of four viewings
6.00	A judge must not view four shows by the same company.
2.00	A judge must not view three shows by the same company.
2.00	A judge must not view three shows by the same company for a different company.
4.00	A judge must view shows by at least nine different companies.
5.00	A judge must not view three or more shows in the same month.

At the end of each month, the number of viewings by the most active judge (year to date) is compared to the number of viewings by the least active judge. This number should be zero or one.

14.9	If this number is four.
1.99	If this number is three.
0.499	If this number is two.

* -- If the region is the judge's own region, or the central region, this penalty is halved (new in 2002).

P.S. I shortened a couple group's names (Springfield, Castaways), and the names of three musicals with excessive logorrhea in the title department. These have to do Forums, Reflections and Texas.

AMS - American Music Stage

Code : C3A

Schedule quality: 64.753

Show 1 : Peter Pan [Apr]

viewed by Elden Street / Judge 5 - Hilary Dugan
viewed by Vienna Th. Company / Judge 5 - Nanette Reynolds
